POPULAR ADJUSTABLE SWIVELIER LIGHTS

Swivelier's most popular adjustable lighting devices are available on an attractive point of purchase display board.

Instantly adjustable in any direction, these units solve common lighting problems and enable you to Point the Light Where You Want It!

Ideal for residential and commercial applications. Illuminates any setting.

Use for general illumination, or spot lighting to accent and highlight art, sculptures, displays, exhibits, graphics.

Swivelier's patented spring tension swivel rotates a full 360° and angles 90°.

The swivel socket stays put without levers or set screws. A touch of the finger puts the light in any direction you desire for maximum flexibility.
